BRUNNER Warranty

You have bought a genuine BRUNNER fireplace/stove insert. Doing so, you've made yourself and the environment a great favor. This is because we as the manufacturer have done everything to make heating with wood as much pleasant as possible.

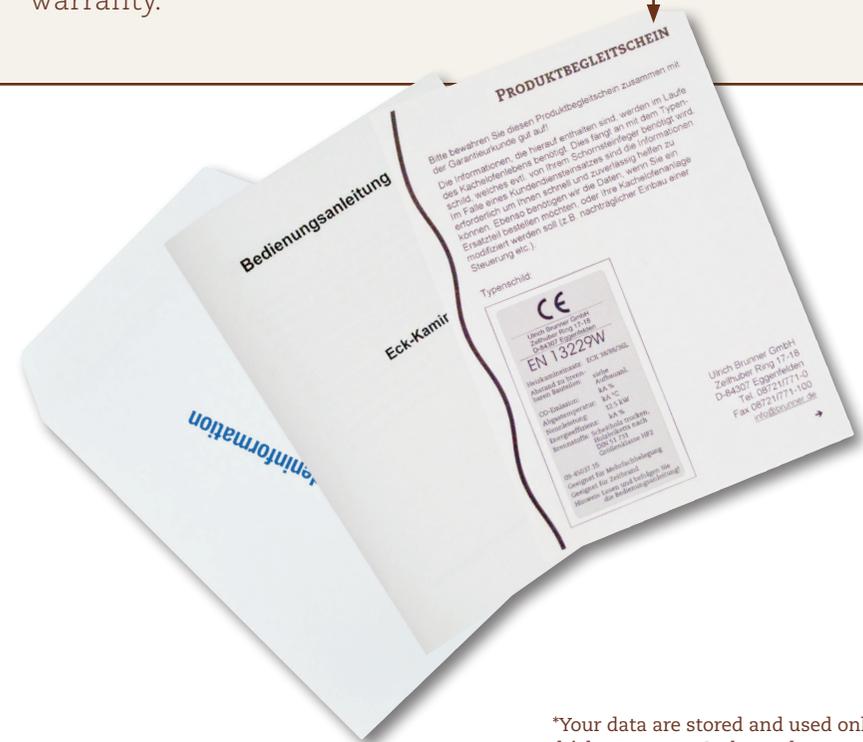

BRUNNER fireplaces and stove inserts are quality products. Several thousands of units sold and our great experience have led us to provide this exceptional warranty offer!

Here is what we offer:

- We extend your **product warranty up to 10 years** (see www.productregistration.brunner.eu for details).
- For optimized service and spare parts delivery, we keep a separate product record for each unit. With this **product record** it is possible for us to find the right spare parts even after many years.
- We submit a personalized **Product Newsletter** and general information about „heating with wood“.

What you should do?

- After purchase/commissioning, register your product online at www.produktregistrierung.brunner.de
- During registration, we store your product data and address of residence.*
- For successful registration you need to enter the **Lot Number(s)** of your product(s). You'll find the number(s) on the back of your attached **Product Reference Card**. This will activate the product record and you receive an extended product warranty.

*Your data are stored and used only by Ulrich BRUNNER GmbH, only to provide personalized information, offers and promotional activities, which refer to the purchased product item. Third party access to your personal data is excluded.
